

# Kremlin “covering up” Navalny’s death

Alexei Navalny’s allies have accused the Russian authorities of trying to hide evidence, as investigators say the official probe has been extended and that the cause of death remains unknown

**Feb 16:** Navalny dies at **IK-3** penal colony near village of Kharp

**Alexei Navalny:** Prison authorities say he suffered “sudden death syndrome”. Allies believe he was murdered on orders of **President Vladimir Putin**

**Salekhard:** Navalny’s mother, **Lyudmila Navalnaya**, 69, and lawyers have been denied access to morgue where body is believed to be kept

**IK-3 penal colony:** Nicknamed “Polar Wolf”, temperatures in winter can plummet to  $-30^{\circ}\text{C}$ . Known for culture of collective punishment

**Yulia Navalnaya:** Navalny’s widow vows to continue his work to fight for “a free Russia”
