

Russia steps up attacks in eastern Ukraine

The situation in Ukraine's east has "worsened significantly," with Russian troops stepping up attacks during a spell of warm and dry weather, according to Ukraine's commander-in-chief

 Russian control as of Jan 1, 2024

 Russian gains to Apr 14, 2024

1 Lyman and Bakhmut axis

Significant intensification of Russian offensive actions

2 Chasiv Yar: Intense battles ongoing. Russia reportedly within 10km of strategic city

3 Pokrovsk axis: Russian forces attempting to break through with tanks and armoured vehicles

Significant intensification of Russian offensive actions

4 Avdiivka: Continued Russian gains west of city, including village of Pervomaiske
