

Joe Biden's health sparks concerns

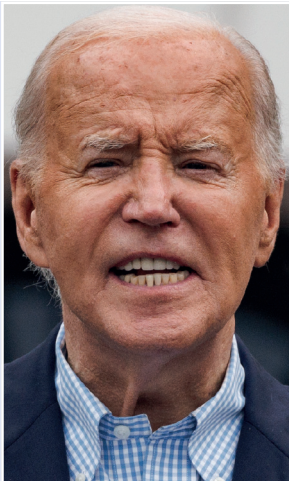

The U.S. president's halting performance in the June 27 debate has led a growing number of Democrats to raise concerns about his age, health, and ability to lead the federal government

■ Dr. Kevin O'Connor:

Has been the president's official physician since Biden took office in January 2021 and is in daily contact.

Biden has extensive annual physical each year

■ Dr. Kevin Cannard:

Neurologist and Parkinson's disease expert at Walter Reed Medical Center.

Neurologist who evaluated President Biden at each of his physicals since 2021

■ **Feb 28, 2024:** O'Connor gives Biden clean bill of health at his annual physical

■ **Parkinson's:** Physical specifically rules out Parkinson's disease

■ **Jul 2023-Mar 2024:** Visitor logs show Cannard went to White House eight times

■ **Jan 17:** Cannard meets with O'Connor, and two others at White House clinic
