

# Humanoid robot painting goes to auction

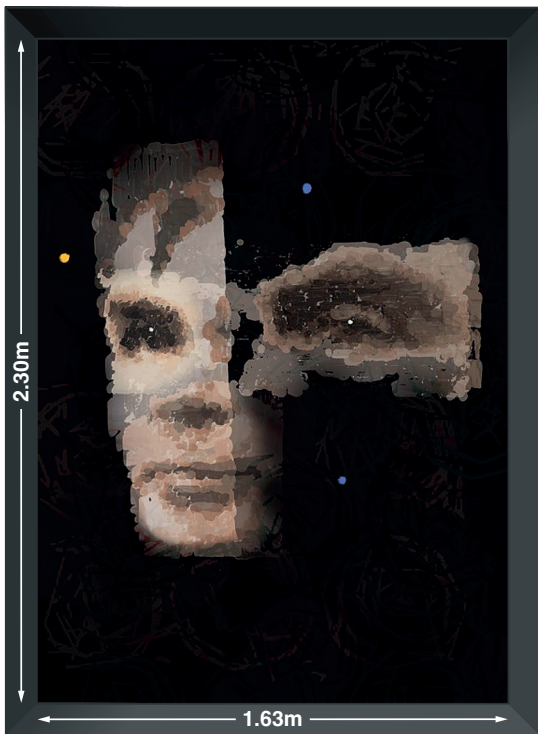

**Ai-Da**, one of the most advanced humanoid robots in the world, is set to make history when its portrait painting of **Alan Turing** goes to auction for an expected hammer price of \$130,000-\$196,000

■ **Ai-Da**: Created by UK art gallery owner **Aidan Meller** in 2019. Uses Artificial Intelligence (AI) to make drawings, paintings and sculptures using its camera eyes and mechanical arms

■ Named after **Ada Lovelace** (1815-1852), English mathematician and writer known for her work on **Charles Babbage's Analytical Engine** mechanical computer

— **AI God, Portrait of Alan Turing** —  
Mixed media on canvas, executed 2024  
Ai-Da Robot (**Aidan Meller**)

■ **Alan Turing** (1912-1954): World War II codebreaker, regarded as father of modern computer science. Famed for designing British **bombe machine** in 1939, used to help decipher German **Enigma machine** encrypted secret messages
