

China dominates skyscraper standings

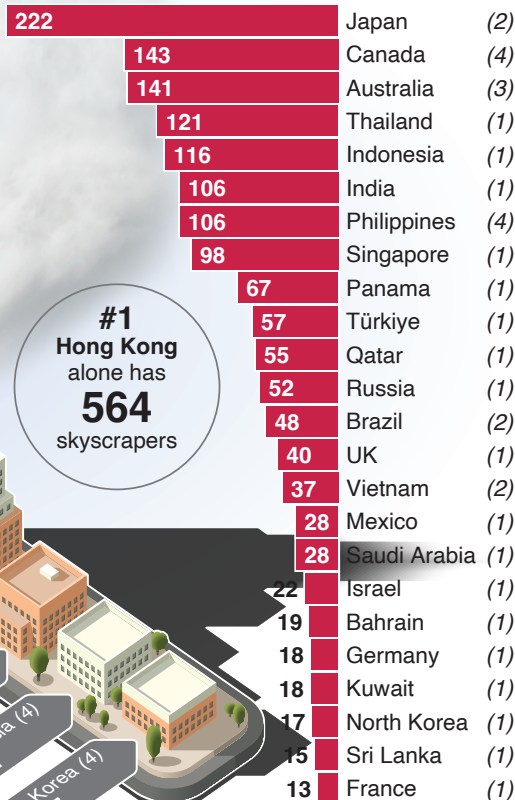

New York is often seen as the skyscraper capital of the world, but in reality lies in third place behind two areas of China – the country with the most tall buildings in the world

TOP FIVE NATIONS...

...AND THE REST (tally of 100 cities)

Number of skyscrapers

Number of cities

#1
Hong Kong
alone has
564
skyscrapers

Note:
Skyscraper
is building taller
than 150m
