

U.S. set for LNG export boom

In the span of about seven years, the U.S. has transformed itself into the world's largest LNG supplier and production capacity is projected to expand by 60% in the first half of Donald Trump's presidency

LIQUEFIED NATURAL GAS (LNG) EXPORTS

Million tonnes

— United States — Australia
— Qatar — Russia
■ BloombergNEF forecast

By 2030: Almost one in three tankers carrying LNG will originate in U.S.

2025: Trump lifts ban on new LNG export licences

2023: Record U.S. exports of 91.2 million tonnes
