

NATO faces increased drone threat

Romania is the second NATO country to report a Russian drone incursion, as the alliance remains on edge days after a wave of airspace violations confirmed by Poland

Sep 9-10: Polish airspace violated 19 times during Russian attack on Ukraine. NATO jets shoot down at least three drones

- NATO members
- Reported drone debris
- Reported drone launch locations
- Russian-occupied territory in Ukraine as of Sep 14, 2025

Sep 14: Romania says Russian drone entered its airspace near village of Chilia Veche, before disappearing from radar
