

# Oldest dome-headed dinosaur discovered

Paleontologists have identified the most complete and oldest known *pachycephalosaur*, a discovery that pushes back the origin of dome-headed dinosaurs by at least 14 million years

**Fossil:** Named *Z. rinpoche*, meaning “precious one” in Tibetan, found in Gobi Desert

***Z. rinpoche* dates to 115-108 million years ago, pre-dating previous records of dome-headed dinosaurs**
