

# What's in Trump's plan to end Gaza war?

Israeli Prime Minister Benjamin Netanyahu has accepted a U.S. plan to end the war in Gaza, while Hamas is yet to officially respond

## GAZA CEASEFIRE

- **All hostilities** immediately end
- Hamas frees **all hostages** it still holds, living or dead, within 72 hours
- In return, Israel releases **250 Palestinian prisoners** serving life sentences, **1,700 Gaza residents** detained during war, and the remains of **15 Palestinians** for the remains of each dead hostage

## ISRAELI WITHDRAWAL

- Takes place after Hamas disarms and as **International Stabilisation Force (ISF)** deploys to fill areas that Israeli forces vacate
- Israel keeps **"security perimeter presence"** – meaning possible buffer zone inside Gaza

## FATE OF HAMAS

- Group **plays no part** in running territory. All its military infrastructure dismantled, including tunnels
- **Amnesty** granted for Hamas members who pledge to live peacefully. Those wishing to leave Gaza are allowed to do so
- ISF ensures Hamas' disarmament, keeps order and trains **Palestinian police** to take over law enforcement in Gaza

## POSTWAR GAZA

- **Humanitarian aid** flows in, run by "neutral international bodies"
- International effort **rebuilds** Gaza – Palestinians not expelled
- **Interim body** of Palestinian technocrats runs day-to-day affairs, overseen by **"Board of Peace"** which supervises reconstruction
- **Palestinian Authority** undergoes reforms so it can eventually take over governance, leaving door open for eventual Palestinian state
