

Potential Tomahawk targets in Russia

Nearly 2,000 Russian military sites would fall within range of Ukraine's forces if the U.S. approves delivery of Tomahawk missiles

RANGE OF U.S. WEAPONS
INSIDE RUSSIA

At least 1,945 known Russian military objects, including 76 airbases, are in range of Tomahawks (2,500km variant)

Note: Military objects include permanent bases, unit headquarters, storage depots, fuel depots, warehouses, radio installations, command centres, air defence sites, repair bases, weapons factories and training grounds. Some sites omitted for clarity

*High Mobility Artillery Rocket System – already supplied to Ukraine
