

# Samsung unveils new multi-folding phone

Samsung has unveiled its *Galaxy Z TriFold* smart-phone, set for imminent release, priced at \$2,450

Device consists of three folding panels seen here simultaneously unfolding from **front and back**

## PHONE MODE

Front-facing camera (closed)

6.5-inch (165mm) display

**Hinge 2:** Similar to one used in *Galaxy Z Fold7* twin-panel phone

## COMPETITION

**Huawei** makes *Mate XT* phone/tablet with S-shaped folding mechanism, requiring one screen fewer than Samsung's

**Hinge 1:** Engineering challenge as it must flex enough to bend around two panels

NFC chip location, used for payments

Front-facing camera (open)

10-inch (254mm) AMOLED display

## TABLET MODE
