

Trump approval rating slides

U.S. President Trump – bedevilled by failed policies and the violent chaos of ICE agents shooting and killing American citizens on their own streets – is seeing his approval numbers tumble

PRESIDENT TRUMP JOB APPROVAL POLL AVERAGE

Trump won second term largely on promise to put America first and lower consumer prices at home. However, his focus on imperial ambitions abroad and aggressive tariffs on trade partners has contributed to **2.7% rise in cost of living, coupled with higher cost of health insurance**

Within first couple of months of his second term, Trump's approval rating falls back into familiar negative territory
