Trump to debut new Air Force One

President Trump is set to make his first flight aboard the new Air Force One – a Boeing 747-8 donated by Qatar – during Washington's July 4 flyover celebrating America's 250th anniversary

NEW AIR FORCE ONE: Designated as ***VC-25B Bridge***

Retrofitting luxury plane has required security upgrades, improved communications to prevent eavesdropping and missile defence capabilities

Exterior: Painted in red, white, dark blue and gold livery chosen by Trump

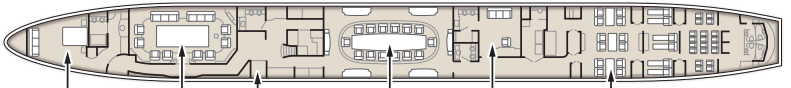

Interior: Has minimally changed from original

UPPER DECK PASSENGER AREA

Crew rest | VIP lounge | Crew bedroom

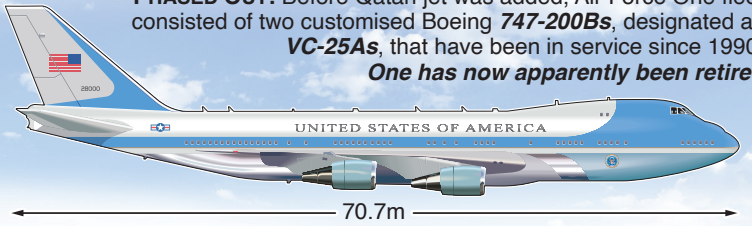

MAIN DECK

Master bedroom | Private lounge | Main entrance | Main lounge | Office | Staff seating

- Despite criticism, Trump says accepting Qatar's aircraft is legal and pledges to donate it to his presidential library after leaving office
- VC-25B Bridge will serve as president's interim aircraft until Boeing delivers two purpose-built 747-8s under a $3.9 billion contract

PHASED OUT: Before Qatari jet was added, Air Force One fleet consisted of two customised Boeing ***747-200Bs***, designated as ***VC-25As***, that have been in service since 1990. ***One has now apparently been retired***
