Ukraine brings war to Russia

Russian officials have reported more than 600 drones targeting Moscow, in what appears to be one of Ukraine's largest aerial attacks of the war

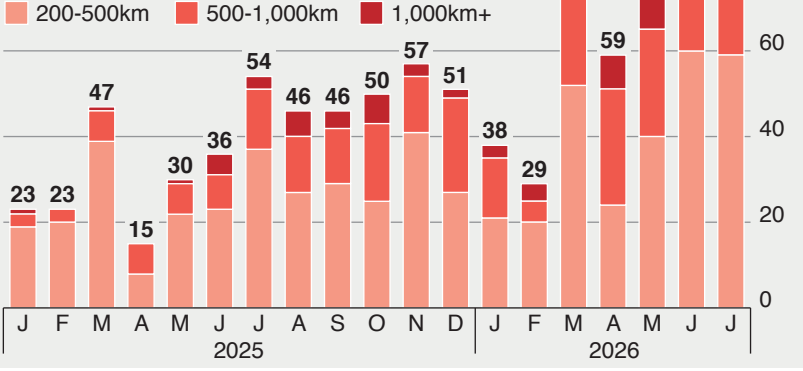

Aug 17, 2026
Total of 620 drones target Moscow region, with 180 destroyed

Most Ukrainian strikes have range of under 200km but longer-range attacks have increased dramatically in 2026

Jul 2026: Ukraine launches almost three times as many long-range strikes as it did in January

DEEP STRIKES INTO RUSSIA *(Jan 2025-Jul 2026)*
