Trans-Pacific submarine cable to bypass China

A new Thailand-US Submarine Cable System (THUS) is intended to bypass the South China Sea "and other routes that carry security risks" as Washington seeks to expand its own secure digital infrastructure

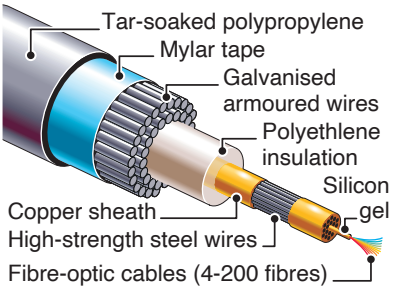

THUS will skirt South China Sea, spanning up to 18,500km to connect Thailand directly to U.S.

Landing points

1 Thailand
2 Vietnam
3 Malaysia
4 Singapore
5 Indonesia
6 Philippines
