U.S. to send 2,000lb bombs to Israel

In a deal worth $2.8bn, the U.S. plans to send Israel the largest single transfer in years of some of the most destructive bombs in its arsenal. The U.S. provides the funds for the sale via Foreign Military Financing

MK-84 LOW-DRAG-GENERAL-PURPOSE (LDGPB) BOMB

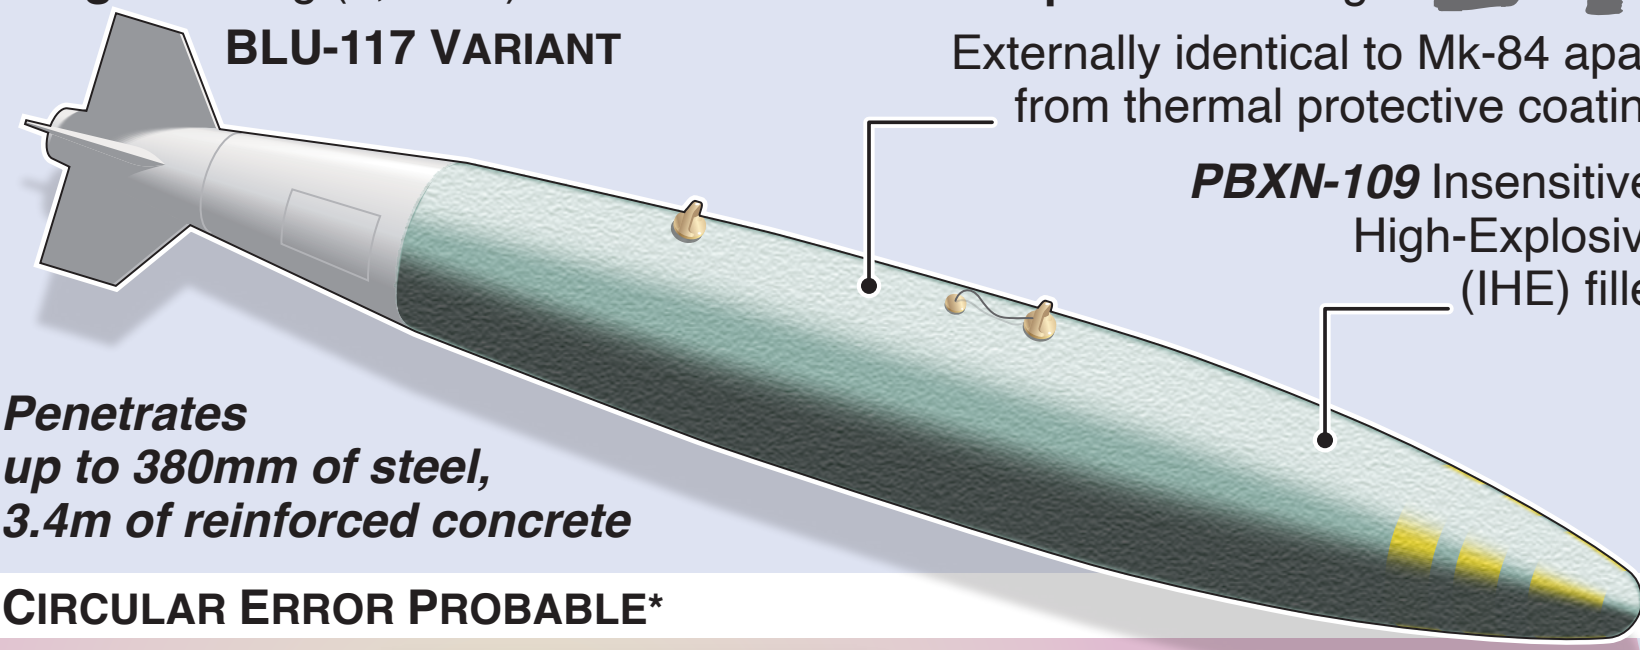

Weight: 907kg (2,000lb)

Explosive: 429kg

BLU-117 VARIANT

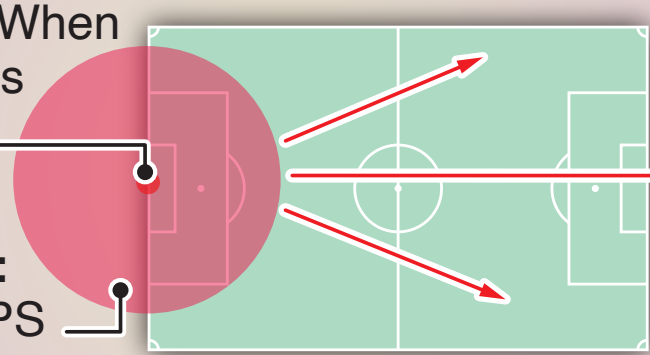

Penetrates up to 380mm of steel, 3.4m of reinforced concrete

CIRCULAR ERROR PROBABLE*

5 metres: When GPS data is available

30 metres: With no GPS

365.8 metres: Lethal high explosive fragmentation range

Pressure from explosion can rupture lungs, burst sinus cavities and tear off limbs

**Defined as radius of circle accuracy by 50% of projectiles*
