

Volvo S80 packed with safety technology

The next-generation S80 luxury sedan features Adaptive Cruise Control with Collision Warning and Brake Support to warn the driver and lessen the severity of an impact in a collision. The new S80 even has a heartbeat sensor, which warns the keyholder if someone is hiding in the car

LED tail lights: Identifies S80 at greater distance, even when dark

Adaptive bi-xenon headlight system: Headlights move to left or right depending on how driver turns steering wheel

Wheelbase: 2,836mm

Head Up Display projected onto windshield

Turn Right 50m

Pop-up navigation system

Active chassis:
Comfort, Sport and Advanced settings to suit driving styles

Centre stack:

Extends to rear seats – connections for iPod or electric cooling box

Gearbox:
Six-speed Geartronic automatic

Adaptive Cruise Control: Radar maintains safe distance from car in front – signals braking system to ready for quick stop

Servotronic steering:
Offers three levels of power steering assistance
