

Lebanon oil slick

Lebanon's oil spill, caused by Israeli bombardment of oil storage units at the Jiyeh power plant, may rival the leakage of the *Exxon Valdez* in 1989. Experts warn that strong winds could cause the spill to reach Turkey, Greece or Cyprus

MEDITERRANEAN
SEA

July 13-15:
10,000 tonnes
of oil escape.
35,000 tonnes
in total may
be spilt
