

## First car to score top safety marks

Citroën's flagship C6 comes packed with style, technology and safety features and is the first car ever to achieve maximum Euro NCAP ratings for both pedestrian safety and adult occupant protection. With a top speed of 230km/h, its 208bhp powerplant can push the C6 to 100km/h in 8.9 secs

Xenon directional headlamps enable driver to see more when cornering

Wheelbase: 2,900mm

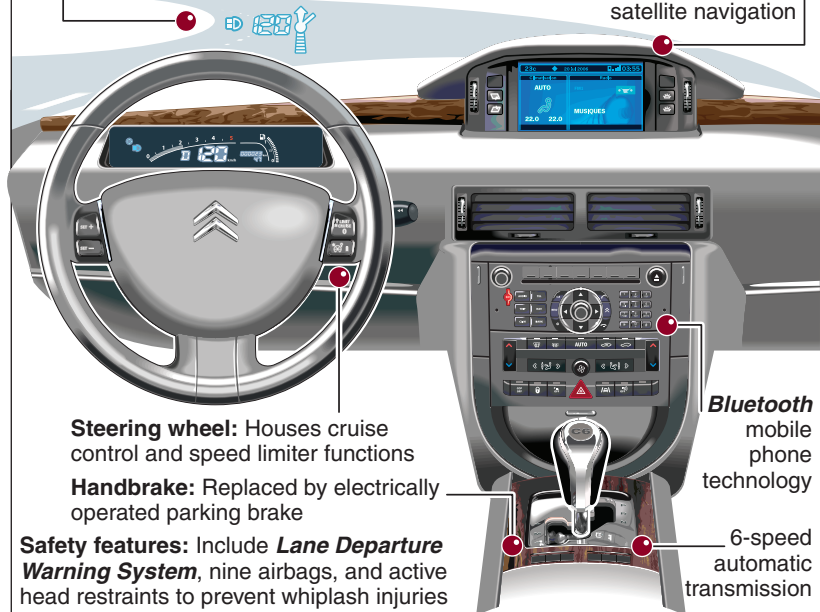

**Glide'n'ride handling:** Above 100km/h, gas-sprung *Hydractive* suspension settles down 12mm closer to road and is held there with aid of rear spoiler

Rain-sensitive wipers

Front and rear parking sensors

**Heads-up display:** Projects key driving information onto windscreen

**Colour screen:** Shares in-car entertainment and voice-operated satellite navigation

**Steering wheel:** Houses cruise control and speed limiter functions

**Handbrake:** Replaced by electrically operated parking brake

**Safety features:** Include *Lane Departure Warning System*, nine airbags, and active head restraints to prevent whiplash injuries

**Bluetooth** mobile phone technology

6-speed automatic transmission
